PROFESSIONAL SUMMARY

Artificial Intelligence Engineering undergraduate and junior Machine Learning / Data Analytics professional with hands-on experience building and validating classification and regression models, engineering features, and translating data into decision-ready dashboards. Completed FlyRank AI internship tracks in Machine Learning and AI Fluency, with a strong focus on leakage-aware, time-aware, and client-disjoint validation. Skilled in Python, pandas, scikit-learn, Power BI, Excel, SQL fundamentals, Git, and reproducible technical reporting.

EXPERIENCE

Machine Learning Engineering Intern - FlyRank AI | Jul 2026 - Sep 2026

- Completed Machine Learning and AI Fluency tracks, including 36 assignments, 3 accepted capstones, and 31 attended events/recordings.
- Built ML workflows around real market problems, including content-decline ranking and freight-rate prediction, with emphasis on practical decision support.
- Identified data-leakage risk and redesigned evaluation around unseen clients; documented model limitations, trade-offs, and recommendations in reproducible notebooks and reports.

SELECTED PROJECTS

Content Decline Ranking - Applied ML Research Capstone | Python | pandas | scikit-learn | Random Forest | [View](#)

- Built a 21-feature ranking workflow across 61,795 pages; achieved 74.6% mean Precision@100 using client-disjoint folds and leakage-controlled pre-outcome signals (+39.4 pp vs. the Week-4 rule).

Freight Rate Prediction | Python | HistGradientBoosting | Time-based Validation | [View](#)

- Modeled future freight rates using 48,000 development loads and 12,000 future-validation loads; compared model trade-offs and selected the final candidate using both MAE and temporal responsiveness.

Sales & Marketing Call Center Dashboard | Power BI | Power Query | DAX

- Analyzed ~200,000 calls and built interactive KPI views for outcomes, products, agents, geography, and time to highlight where failed and abandoned calls concentrate.

Sales Performance Dashboard | Excel | Power Query | PivotTables | PivotCharts

- Turned transaction-level sales data into a repeatable management view covering revenue, returns, regions, products, customers, and trends (2.30M total sales; 5,009 orders).

EDUCATION

Bachelor of Science in Artificial Intelligence Engineering | Arab Open University (AOU) | Current student

TECHNICAL SKILLS

Machine Learning:	Classification, regression, Random Forest, HistGradientBoosting, feature engineering, target definition, class-imbalance awareness
Validation:	Data leakage detection, client-disjoint validation, time-aware validation, Precision@K, MAE, RMSE
Programming & Data:	Python, pandas, scikit-learn, basic SQL, data cleaning, EDA, matplotlib
Analytics & BI:	Power BI, Excel, Power Query, DAX, PivotTables, PivotCharts, dashboard design
Tools & Delivery:	Git, GitHub, Jupyter, Google Colab, reproducible reports, static web publishing

SELECTED CERTIFICATIONS

FlyRank AI - Machine Learning Internship - Sep 2026

Microsoft Certified: Azure AI Fundamentals (AI-900) - Apr 2026

Anthropic - AI Fluency: Framework & Foundations - 2026

FlyRank AI - AI Fluency Internship - Sep 2026

Google AI Essentials - Jul 2026

Anthropic - Claude 101 - 2026
