DANIA YASIR MUTASIM

ARTIFICIAL INTELLIGENCE ENGINEERING STUDENT | MACHINE LEARNING & DATA ANALYTICS

Cairo, Egypt | +20 115 448 6891 | daniathefirs@gmail.com

LinkedIn | **GitHub** | **Portfolio**

PROFESSIONAL SUMMARY

Artificial Intelligence Engineering student with hands-on experience in machine learning, data analytics, and business intelligence. Built predictive models and decision-support dashboards using Python, scikit-learn, Excel/Power Query, and Power BI, with a strong focus on reliable evaluation and practical business insight.

EDUCATION

Bachelor of Science in Artificial Intelligence Engineering | Arab Open University (AOU) | 2025 - Expected 2029

EXPERIENCE & INTERNSHIPS

Machine Learning Engineering Intern - FlyRank AI | **Jul 2026 - Sep 2026**

- Completed Machine Learning and AI Fluency internship tracks and built ML workflows around real market problems, including content-decline ranking and freight-rate prediction.
- Identified data-leakage risk and redesigned evaluation around unseen clients; documented model limitations, trade-offs, and recommendations in reproducible notebooks and reports.

SELECTED PROJECTS

Content Decline Ranking - Applied ML Research Capstone | Python | pandas | scikit-learn | Random Forest | **GitHub** | **Paper**

Role: Feature engineering, model development, leakage control, validation, and reporting.

- Built a 21-feature ranking workflow across 61,795 pages; achieved 74.6% mean Precision@100 using client-disjoint validation (+39.4 pp vs. the Week-4 rule).

Freight Rate Prediction | Python | HistGradientBoosting | Time-aware Validation | **GitHub**

Role: Data preparation, feature engineering, model comparison, validation, and technical reporting.

- Modeled future freight rates using 48,000 development loads and 12,000 future-validation loads; selected the final candidate using MAE and temporal responsiveness.

Sales & Marketing Call Center Dashboard | Excel | Power Query | PivotTables | PivotCharts | **Portfolio**

Role: Data cleaning, KPI design, dashboard development, and business analysis.

- Analyzed ~200,000 calls; found 41.8% successful versus 58.2% failed/abandoned and highlighted where unsuccessful calls concentrated across agents, outcomes, products, geography, and time.

Sales Performance Dashboard | Excel | Power Query | PivotTables | PivotCharts | **Portfolio**

Role: Data preparation, profitability analysis, dashboard development, and recommendation writing.

- Turned transaction-level sales data into a management view covering $2.30M in sales and 5,009 orders, with analysis of profitability, returns, regions, products, customers, and trends.

LEADERSHIP, ACTIVITIES & COMPETITIONS

- **AWS Cloud Club - Member & Hackathon Organizer** - Co-organized the “Vibe Coding Arena with AI” hackathon. **Event Post**
- **DigiMath Competition - Top 10** - Placed among the top 10 in the university mathematics and data analysis competition.
- **Huawei ICT Competition - Participant** - Earned HCIA-Datacom and HCIA-Security certifications.
- **Women Elevate Global Program - Participant** - Joined the Microsoft-supported program and earned Microsoft Certified: Azure AI Fundamentals (AI-900).

TECHNICAL SKILLS

Programming & Data: Python, pandas, basic SQL, data cleaning, EDA, matplotlib
Machine Learning: scikit-learn, classification, regression, Random Forest, HistGradientBoosting, feature engineering
Validation: Data leakage detection, client-disjoint validation, time-aware validation, Precision@K, MAE, RMSE
BI & Tools: Excel, Power Query, PivotTables, PivotCharts, Power BI, DAX, Git, GitHub, Jupyter, Google Colab

SELECTED CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900) | HCIA-Datacom | HCIA-Security | FlyRank AI - Machine Learning Internship | FlyRank AI - AI Fluency Internship | Google AI Essentials
